

HIGH QUALITY TECHNICAL PLASTIC PARTS

Presentation

PLASTECCA is a family owned company specialized in injection of **technical plastic parts** founded in 1990.

Our mission is to offer to our customers a **complete service** to develop new products adding value to their supply chain.

PLASTECCA's commitment with **continuous improvement, zero defects policy and teamwork** allows us to serve the most demanding sectors, complying with the highest market standards and requirements.

PLASTECCA is always open to new challenges. We have an average of 10 % of our turnover in new equipment .

In constant communication with our customer and based on a solid **transparency policy**, PLASTECCA is a proactive company always looking for the best solutions.

THANKS TO STRICT QUALITY STANDARDS, COST TRANSPARENCY, TECHNICAL SUPPORT AND ON-TIME DELIVERIES WE BECOME A RELIABLE PARTNER.

TO STABLISH LONG TERM STRATEGIC RELATIONSHIP.

Technology

Our company currently has a manufacturing plant of 1,150 m².

PLASTECCA has **state-of-the-art** in **constant renovation** with **high automation** degree.

Our range of injection machines cover from 35t to 250t .

We have sophisticated equipment of peripherals (heating control systems, grinders, humidification cameras...) and robots.

Besides, we have all the complementary structure to work the most technical materials. Our production plant counts with central dehumidifier equipment in separate recipients with individual working temperature and automated vacuum system.

PLASTECCA guarantees a **continuous stable process**.

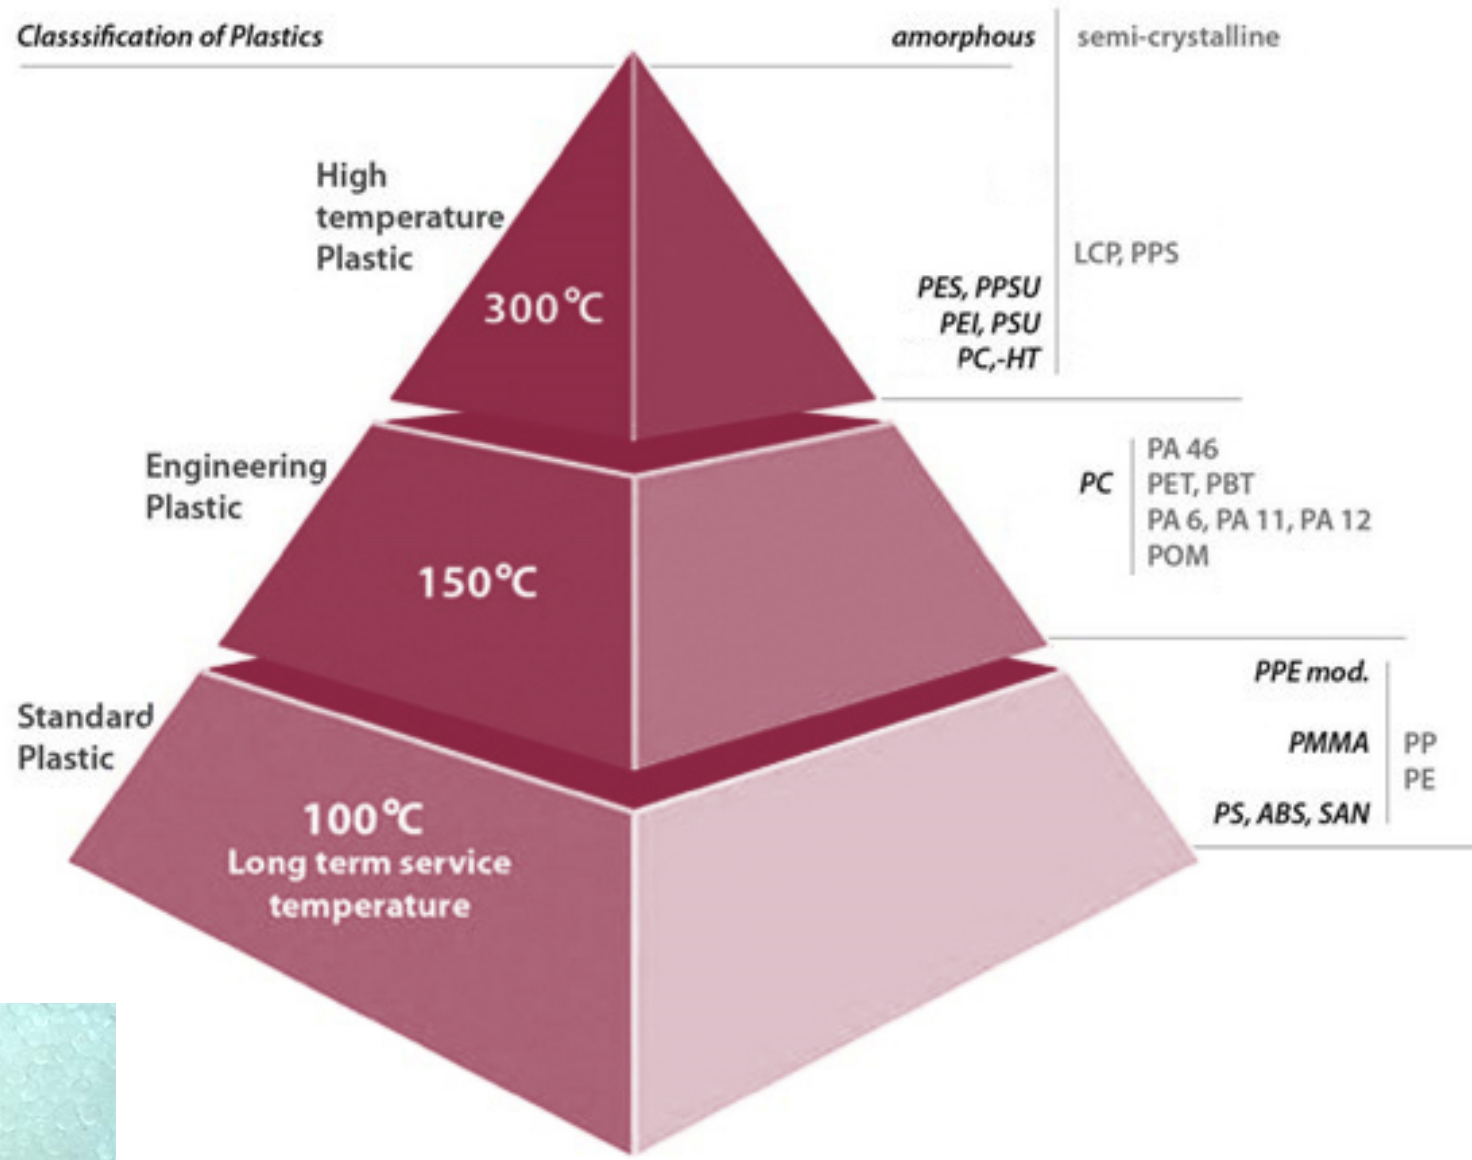

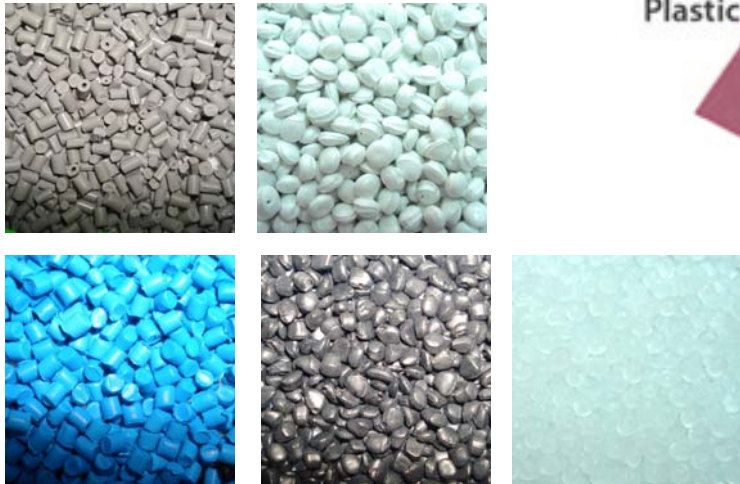

Materials

PLASTECCA works with the **most innovative thermoplastic** materials modified with all type of additives to improve the mechanical, physical and/or chemical properties.

We bring high engineering to our customers to propose the most suitable raw materials to allow the achievement of optimal performance.

Constantly **updated on new thermoplastic developments**, PLASTECCA is able to advise its customers in a wide range of sectors, from automotive to medical.

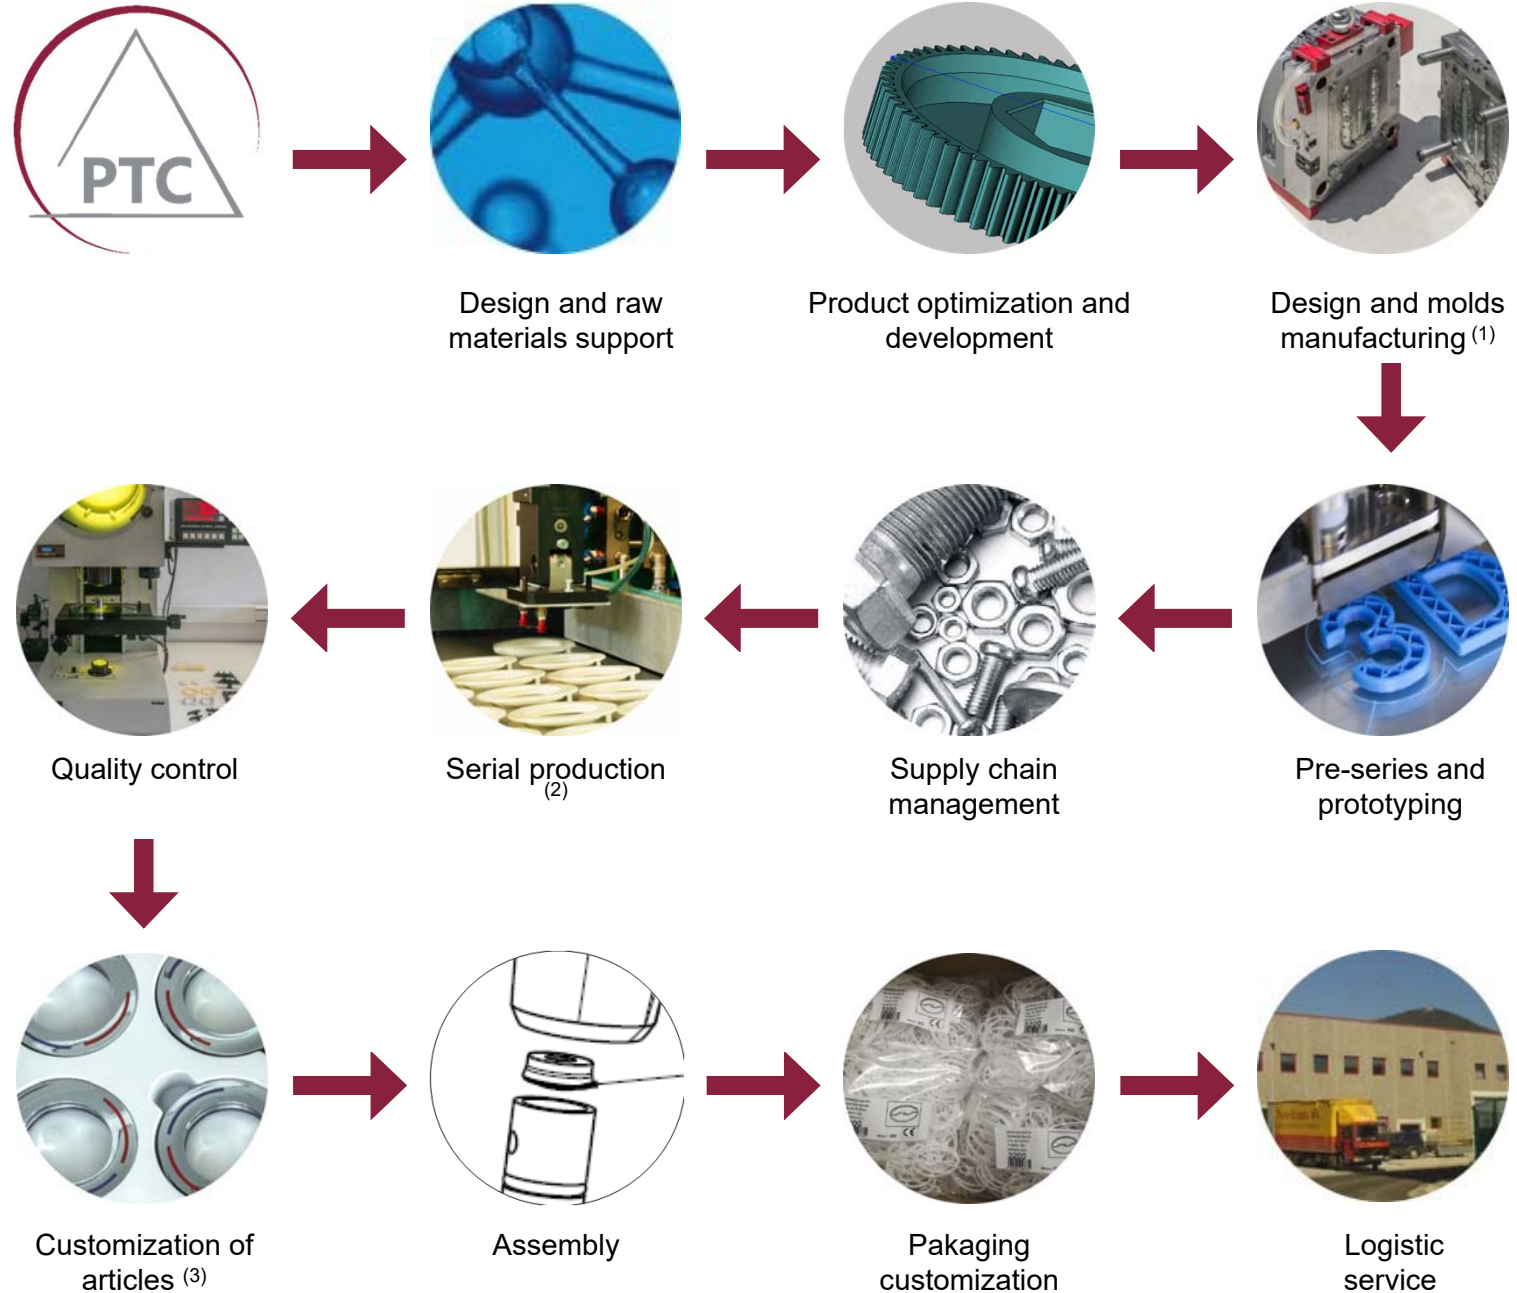

Service

We are able to offer a **global service** with complete supply chain.

PLASTECCA works hand in hand with its clients to **optimize both investment and production costs**.

We ensure **quick response** to our clients requests and we are highly committed to **on-time deliveries**, keeping when necessary safety stocks.

PLASTECCA guarantees **full traceability** of all the products

(1) In Spain as well as Over-seas countries.

(2) Over-molding of metal-plastic, plastic-plastic, textile-plastic.

(3) Chrome plating, decoration (screen printing, pad printing, thermo-engraving, laser engraving, etc.), ultra-welding, strilization.

Quality and environment

Our technical background of more than **25 years of experience** in the plastic manufacturing sector and **continuous training** of our team is our maximum guarantee of quality.

PLASTECCA's core quality values are **traceability** following the FIFO standard and **strict quality controls**. Familiar with the standards of the sectors for which we work, we can offer production control with PPAP, 8D reports, FMEA's, ...

We are certified according to **ISO 9001** quality standards since 2001.

In a very green area, close to a Natural Park, we are committed to **protecting the environment and social rights** in our surroundings. In order to warranty our commitment for a good implementation of economic, environmental and social policies, we have obtained the European certification **LEADER +**.

We joined the international **SEDEX** Platform (Ethical Data Exchange) for the control and protection of **business transparency**.
