DISTINCTIVE HANDCRAFT EXPERTS FOR MORE THAN 40 YEARS

Since 1978 Dado Lighting expressed the commitment to never forget its roots, valuing strong traditions while implementing innovative techniques regarding the meticulously handcrafted lighting production.

More than 40 years of accomplishments manifest refinement every day. Passion, devotion, and endurance: the brand's history is shaped by creators who share the same essence. The secret? Dream bigger and strive to create breathtaking lighting and timeless experiences.

The past decades brought technological advances driven by a pioneer spirit and an incessant need for the creation of extraordinary collections. The development of trailblazing designs is propelled by a single purpose:

TO CREATE
A LEGACY IN THE HISTORY
OF LIGHTING DESIGN

BRASS CRAFTING MASTERS WITH VISION AND EXPERTISE

Creative brass crafting is an embodiment of an artist's vision, brought to life by their effort and expertise. Castro Lighting's production takes place in its factories in Portugal, where the best quality lighting solutions are created.

The manufacturing process is supervised by experienced professionals who are constantly looking for new and original techniques and approaches. The handling of brass is the history and foundation of Castro Lighting, being its responsibility to inspire and empower future generations to keep the tradition alive. Hand-wrought work can never be entirely replaced by machinery.

FROM MODERN TO **CLASSIC**, THE IDEAL LIGHTING FOR ANY PROJECT

Throughout the years, while gathering the desirable experience, Castro Lighting took advantage of its proficiency in brass-work production. This allowed the development of more up-to-date, bold, and fresh forms in design. While classic style and influences were the foundation of the brand, a new approach grew within.

The latest collections rejoice with audacity, privilege, and strong statements. The use of noble materials and selected finishes, allied with a youthful and simpler approach to design, turned into a new signature for the brand. A claim of opulence, grandeur, and sophistication.

THE LATEST INNOVATION MEETS HANDCRAFT PRODUCTION TECHNIQUES

With the perfect combination of ethics, motivation, hard work and passion for industrial design, as well as a fascinating journey of discovery, Castro Lighting became internationally known.

When it comes to brass work, the brand is famous for its singularity, extraordinary quality, and beauty. The ultimate fusion between the authenticity of traditional Portuguese metal-work techniques, artistic masters, and creative craftsmanship, continuously delivers the next step in innovation. Thusly, a wide range of products in different styles, from classic to modern, is created to provide the ideal lighting for any ambience.

Every year represents a new challenge for those who genuinely love and admire majestic designs. Castro Lighting represents a reference point in acquiring customisable lamps in different materials, finishes, and dimensions.

Every lamp perfectly fits the most luxurious interiors, reflecting elegance and fantasy. New collections are developed alongside the best industry players to re-invent functionality, individuality, and beauty.

MODERN COLLECTION

Modern design is linked to the mid-20th century, with roots in both German and Scandinavian Styles, where a sense of simplicity and clean lines is included in every element of the interior décor. Throughout the years, while gathering experience, Castro Lighting has been taking advantage of its proficiency in brass-work, developing more up-to-date and fresher designs each year, and expressing its own idea of modernity, elegance, functionality, and versatility.

Aiming to provide professionals with innovative modern designs, the collections get a twist with a fresh classic tone that mixes minimal textures and bold geometric forms with polished finishes and asymmetrical balance.

The choice of luxurious finishes and selected materials along with crystals introduces an unforgettable signature of inspiring effortless luxury collections for modern interiors.

The Eclipse Collection was named after the solar eclipse phenomena when the moon creates a shadow that partially inhibits sunrays from being seen from Earth. Recreating this natural wonder, this design is composed of two rounded brass plates with a slight distance between them, only allowing little crescents of light to shine through. The front plate is hammered by hand, reflecting light in the shiny finish in the back.

CLASSIC COLLECTIONS

In the beginning, Caszro Lighting took its first steps in the lighting industry with classically styled chandeliers, taking advantage of the expertise and the long craftsmanship tradition of Portugal. Nowadays, the brand has several bestseller Classic Collections spread across the world and some of them are even part of the most magnificent and renowned interior design projects.

Classic style is inspired by the 18th and 19th century European décor, a timeless trend that displays elegance and lavishness, as well as elaborated silhouettes and exciting detailing. To bring this concept to life and create its own and renewed interpretation of classic luxury, Caszro Lighting creates new designs each year, from suspension to floor lamps, all characterized by the use of noble materials and valued traditional techniques.

Timeless influences are materialized in lighting collections that incorporate an elegant combination of refined materials, such as brass, marble, glass, and crystals. Each crystal is handled with love so that each reflection is never less than perfect. The outcome is true masterpieces with Venetian, Art Deco, and Hollywood glamour styles. Each space is awarded a delicate brightness and everlasting grace.
