

IDEAL & WRS
SADDLE COMPANY LTD

Walsall Riding Saddles.

A close-up photograph of brown leather, likely from a saddle, showing the texture and stitching. The leather is a rich, warm brown color with a fine, pebbled grain. The stitching is visible as a series of parallel lines, with the thread appearing slightly lighter than the leather. The lighting is soft, highlighting the natural texture and slight variations in tone of the leather.

**STYLE.
PERFORMANCE.
DURABILITY.**

Since 1946 WRS under the Crosby brand have manufactured some of the most famous saddles in Walsall. Today with over 300 years of combined saddle manufacturing experience WRS presents its range of traditionally manufactured saddles using the very best leather and raw materials.

THE HEART AND SOUL OF THE WRS SADDLE.

The heart of the WRS saddle, a WRS saddle tree, has been fashioned through exhaustive research and development, being designed and tested by some of the world's elite riders, thus provides an exceptional fit on the horse.

All trees are manufactured from birch wood laminate veneers in a unique 3D jigsaw method; clamped together and then oven cured for superior strength.

The more open arch gives good clearance on the horse's withers. The points are specifically designed so as not to impede the horse's shoulder movements. The angle of the side bars allows for a narrower twist, enabling the rider to achieve a closer leg position to the horse.

The bars are also anatomically constructed to follow the contours of the horses back.

All our trees are manufactured to surpass the latest British Standard BS 6635:2015

If the tree is the heart of a saddle then the leather is its soul. Ideal knows more than a little about leather and is expert in sourcing the finest materials for its products to ensure every item of saddlery is made from the most appropriate leather of the highest quality.

The unprecedented support that my horses and I get from Ideal & WRS saddles has enabled us to get so much more from ourselves.

The product is second to none and there is so much attention put in to smallest of details to ensure that both my horses and I are comfortable yet effective.

I find Ideal an absolute pleasure to work with and feel privileged to have such a loyal, supportive, and knowledgeable team behind me.

DAN O'DELL

Integra MkII Monoflap

Developed in conjunction with competition riders and acclaimed by many competitors, this saddle comes with a wool flocked panel for the higher withered horses, or a foam panel for the flatter profiled horses. It is lightweight and gives a close contact feel for the rider. The Integra has been developed to enhance the movement of the horse and the control for the rider. A twin-flap version is also available.

Sizes 16" to 19"

Applications Show Jumping, Cross Country

RANCH BLACK SALA MILITARY

Valentino

An eye catching, modern design, this light weight and close fitting show jump saddle has been designed to maximise range of movement in the back and shoulders whilst providing stability for the rider through optimised block positioning and is available with a flocked or a foam panel.

Sizes 15½" to 18½"

Applications Show Jumping, Jumping

RANCH BLACK SALA MILITARY

Devo

This Jump GP saddle is a mid-sized seat. It presents a neat secure seat with fixed or hook and loop fastening knee and thigh blocks for added security. Ample panel ensures good even weight distribution and will suit many horses and riders in the Jump/ GP market and fits particularly well on horses with a higher wither.

Sizes 16½" to 18½"

Applications Show Jumping, Cross Country, Hacking, Hunting, General Riding, Jumping

RANCH BLACK SALA MILITARY

WRS 38 Jump

A modern design with a close contact panel for the well-muscled competition horse, and cleverly designed to provide excellent support for the rider's leg when jumping. This saddle is available with a flocked or a foam panel.

Sizes 16" to 18"

Applications Show Jumping, Cross Country, Hacking, General Riding, Jumping

RANCH BLACK SALA MILITARY

I love Ideal saddles. I have been a fan for many years and can honestly say that I wouldn't look anywhere else. My young KWPN stallion has huge movement through his shoulders and loves his saddle. It allows him to express this movement whilst also putting the rider in the best possible place to sit with a deep and balanced seat. His scores have been consistently climbing. The quality of materials and service is second to none and I would never hesitate to recommend Ideal Saddles to friends and clients alike.

PIPPA CHILDHOUSE & AMOUR G

WRS 250-D

A dressage saddle designed primarily for Warmblood and Thoroughbred horses with wide bearing surface to increase comfort and reduce pressure. Deep seated and with large knee blocks to aid the riders security in the saddle.

Sizes 15½" to 19"

Applications Dressage, Flatwork

WRS Pony

This saddle has been created with the junior competition rider in mind. With the increasing ability of the junior rider and the capability of the modern competition pony, we have designed this saddle to cope with the increasing demands of modern competition whilst providing security and support for the rider.

Sizes 13" to 16½"

Applications Show Jumping, Cross Country, Hacking, Flatwork, Hunting, General Riding

Integra Dressage

This attractive saddle has been designed on the popular Centennial tree, providing a broad, gently curved shape. The design of this saddle is to suit breeds such as Welsh Cobs and Icelandic ponies as the cleverly designed slightly rear facing points aid stability for broad horses with small wither, whilst allowing full range of movement of the scapula.

Sizes 14" to 19"

Applications Dressage, Flatwork, General Riding

WRS Pony Mk1

The original WRS Pony saddle with a closer contact panel.

Sizes 13" to 16½"

Applications Show Jumping, Dressage, Hacking, Flatwork, General Riding
