COMPANY

Leyro Instruments is a specialized company in the manufacture, distribution and maintenance of calibration and measurement equipment.

We provide solutions in relation with various sectors of the industry. We aim to provide the best solutions with the most accurate and intuitive technology in a key market for the production and service sectors. Nowadays each factory, research laboratory, university, office, hospital or facility new construction is a potential customer of our products.

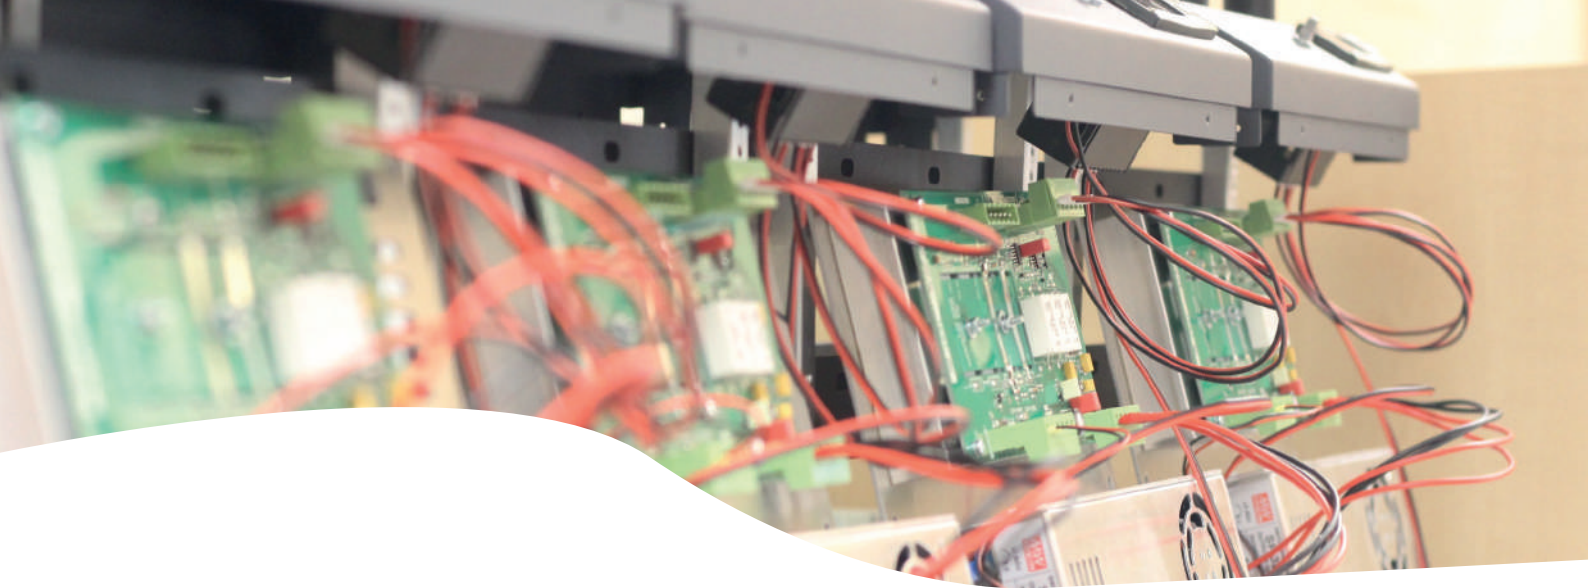

Our business philosophy is focused on total customer commitment . We know that our products must be supported by an excellent advice service, training, repair and maintenance.

The satisfaction of our customers and our staff is a strategic reference point that drives every day to LEYRO.

Leyro innovates, Leyro leads.
