Catalogue 2021

Zilenzio develops and delivers high-quality sound absorption using well-considered and designed solutions. Our products are the result of our long experience in sound design, analysis of offices, and tests carried out according to international standards.

We have created healthy acoustic surroundings in many workplaces, and our employees have high expertise in sound absorption and the acoustic properties of different materials.

We are experts in improving the sound environment.

Zilenzio Pro

Zilenzio Pro brings together the best in function, design and durability. All products in the series use Stone Wool for exceptional sound absorption, a recyclable and ultra durable material that is also fire and water-resistant. Several are available with replaceable fabric to extend the product's life and offer a truly sustainable alternative. Zilenzio Pro meets the market requirements with a complete and updated reference and labeling system. The system is based on three requirement areas. Quality (technical requirements), environment and responsible supply chains regarding socially, environmentally, and ethical responsibility.

Dezibel Ceiling

Ceiling Absorber

Dezibel Ceiling is available in several sizes and shapes, and can be combined endlessly to create the visual and acoustic effect you need. They are an efficient way to reduce echoes and reverberation in public spaces. Moreover, they are a good complement to other sound absorption screens and solutions.

Dezibel Divider

Ceiling Absorber

Dezibel Divider is a sound-absorbing module available in optional sizes that can be combined in many different ways. The absorbers are either suspended at 50 or 100 mm intervals. Get a ready-made combination or design your own adapted after the customers specific space.

12

Dezibel Wall

Wall Absorber

Dezibel Wall are panels that are available in several sizes and shapes, and can be combined endlessly to create the visual and acoustic effect you need. The panels also work well as message boards. They are an efficient way to reduce echoes and reverberation in public spaces. Moreover, they are a good complement to other sound absorption screens and solutions.

13

Dezibel Print

Wall Absorber

An easy way to give your absorber a unique character is to print something on the fabric. Perhaps a company logo or pattern? The canvas is yours, and the possibilities endless.

15

Dezibel Flexible

Table Absorber

Dezibel Flexible is developed with a focus on sound absorption, flexibility and the ability to create more uses for large tables. It serves primarily as a barrier to place at strategic locations to divide and screen off sound.

17

Available with: Straight and rounded corners
Available with: Removable fabric

Dezibel Table

Table Absorber

Dezibel table has been developed to provide the best possible design with optimal dimensions for noise reduction between workplaces. The table screen provides an effective and creating working environment by lowering noise levels and improve the personal feeling.

18

Available with: Straight and rounded corners
Available with: Removable fabric

Dezibel Table Duo

Table Absorber

Dezibel Duo has been developed to provide the best possible design with optimal dimensions for noise reduction between workplaces. The table screen provides an effective and creating working environment by lowering noise levels and improve the personal feeling. The screens can be adapted to the specific fittings you use for your desk.

19

Available with: Straight and rounded corners
Available with: Removable fabric

Dezibel Floor

Floor Absorber

Dezibel Floor screen has a minimal design combined with maximum noise reduction. It is developed to correct acoustics problems between workplaces. Its interior consists of stone wool which creates a comfortable sound environment. The floor screen is available in a broad range of fabrics, allowing you to personalize textures and colours.

21

Available with: Removable fabric
Feet options: Beam, Base, Base+Beam, Cube

Classic

Floor Absorber

The Classic floor screen, a very popular member of our family has a minimal design combined with maximum noise reduction. Classic can be used by itself or be connected with other pieces to shield off differently sized environments.

Offizz

Floor Absorber

The Offizz floor screen is designed to reduce noise levels and visual stimulation in the workplace. Available in several formats to create a range of cubicle solutions, Offizz is suitable for a variety of office environments.

24

Dotz

Floor Absorber

Stone wool filling and external cover of textile or laminate. An MDF dividing strip is always located at a height of 700 mm from the floor. It is possible to select filling for top and bottom. Can be supplied with toughened glass in the top section, with or without frame.

25

Delta Ceiling

Ceiling Absorber

Delta is a sound-absorbing system floating in the air, like a soft and generous flight of kites. Soft petals or pebbles polished by the waves, Delta protects the user from noise while delimiting a space of quietude. It comes in various shapes and finishing, which allow it to be used in very different places, from restaurants to hotel lobbies and libraries. Delta is available in three sizes and a variety of fabrics.

Delta Wall

Wall Absorber

Expanding on the aesthetics of the Delta series, Delta Wall balances its soft curves with reliable acoustic dampening. Its segments are available in different sizes and can be colour matched harmoniously to suit all applications and spaces.

Floor Absorber

Kyoto is a modular sound absorbing partition system, enabling buildable environments for calm and focus. The updated design lets workplaces seamlessly adjust layouts for a flexible, efficient and healthy use of space. Available in six different widths and three heights, with two floor drop heights. New adaptable accessories include feet for creating freestanding breakout spaces and wheels for easy moving. Add a whiteboard (available in three sizes) or hooks for hanging. Frames are in ash.

Available with: Stand alone feet
Available with: Wheels
Available with: White board
Available with: Hanger

Tone

Storage Furniture

Tone cabinets are sound dampening design pieces made to help build a balanced acoustic environment in the workplace or at home, ultimately making it easier to focus and concentrate.

33

Available with lock
Available with Top Plates and Trays (P80-81)

Tune

Sofa

Tune is a sound absorbing seating collection designed by Norm Architects. The Sofa has a clad sound absorbing shell that's combined with soft cushions that follows the smooth and clean lines of the sofa.

35

Wall Absorber

The Fazett wall system offers sound absorbing tiles in three different shapes and sizes, and a variety of colors. The individual building blocks can be combined in multiple ways to cover all kinds and scales of surface. They create a decorative wall pattern that absorbs sound at the same time.

36

Timber

Wall Absorber

Timber is a minimalist sound-absorbing module that can be combined in many different ways. They work well as classic wall panels, but also as herringbone, graphic wall pieces, or spaced to create a more airy look.

38

Cloudz

Ceiling Absorber

The Cloudz ceiling-mounted absorbers are designed to be suspended in layers one above the other, and have thus been provided with holes through which cables can be drawn in order to attach one layer to another layer below. Five variants are available to create a diverse and light-hearted impression. A ceiling-mounted absorber is often a useful supplement to other types of absorber measures.

39

Room Divider

Zorla is a mobile floor screen with sound absorbing effects, perfect for reducing noise in open room constellations. The top wooden box can be filled with artificial plants to make it a decorative piece of furniture, making it especially useful in schools and offices. We have solutions for both artificial and natural plants.

Mezzo

Floor Absorber On Casters

Mezzo Floor Screen on casters is a versatile mobile project screen and message board in one; sound absorbing, a white board on the glass side, and a message board on the fabric-covered part – all combined into one product. Together, these two products provide the base for a productive workplace

42

Skog

Floor Absorber

Skog floor screen has high quality with respect to both design and noise reduction. It can be used not only as decoration in the interior design of public environments but also as a screen in office surroundings. The decorative shaped acoustic floor screen will add a modern twist to any environment with its shape, vibrant colours, and unique design. It makes the environment look and feel like a calm, peaceful forest, Skog in Swedish.

43

Arc

Sound Absorbing Ceiling

Arc is a sound absorbing archway that provides a pleasant feeling of enclosure inside a larger space. Verticals and ceiling come together to create a room within a room. Arc can be used as freestanding unit, or placed against a wall, to easily define a new space and create a quiet atmosphere.

44

Available with lamps

Zilenzio Studio

Zilenzio Studio has been developed to suit projects where the requirements for sound absorption are slightly lower. The screen is available with removable fabric, with several different options for feet and fittings. Zilenzio Studio meets the market requirements with a complete and updated reference and labeling system. The system is based on three requirement areas. Quality (technical requirements), environment and responsible supply chains regarding socially, environmentally, and ethical responsibility.

Optima Table

Table Absorber

Optima, a sustainable table screen made to encourage recycling. The screen with a filling made of recycled PET plastic fibers. The material has Class A sound absorption qualities. Light weight which makes it ergonomic to install and move around.

52

Available with: Straight and rounded corners
Available with: Removable fabric

Optima Table Duo

Table Absorber

Optima Table Duo, a sustainable table screen made to encourage recycling. The screen with a filling made of recycled PET plastic fibers. The material has Class A sound absorption qualities. Light weight which makes it ergonomic to install and move around. The screens can be adapted to the specific fittings you use for your desk.

53

Available with: Straight and rounded corners
Available with: Removable fabric

Optima Floor

Floor Absorber

Optima is environmentally friendly in many ways. It is made of Class A recycled PET plastic and has an interchangeable outer textile cover. The cover can be changed to another color or pattern. The screen is lightweight and therefore ergonomic to install and move around.

54

Available with: Removable fabric
Feet options: Base, Beam, Base+Beam, Cube

Focus

For both a growing community of digital nomads and those still inhabiting more traditional workspaces, finding a moment of personal privacy in an otherwise public place – whether an open-plan office, cafe, hotel lobby or school – is an essential means to aid concentration and support wellbeing. Enter the Focus Family of screens: for privacy, ease and endless flexibility.

Focus Table

Table Absorber

Focus Table is a textile space divider, offering a flexible solution for your needs for privacy, peace and concentration. When positioned on a tabletop, it creates a clearly defined personal zone in open-plan environments. It can easily be folded as a binder and stored after use, so it's perfect for activity-based offices.

Focus Floor

Floor Absorber

Focus Floor offers effective privacy in the form of a curved textile screen, combining a soft and tactile finish with excellent functionality. Its featherlight design and foldable construction ensure it's easy to move around and create new configurations in a flexible office environment. Choose the size and shape that best fits your needs.

Focus Pod

Easy Chair

Focus Pod is an adaptable and functional textile screen, complete with a comfortable seat and handy table. Offering a private nook in which to rest within an open-plan environment, it creates a calm and snug feeling for its occupant.

67

Available with plug

Accessories

We have developed a range of beautiful and useful accessories to expand and enhance our Zilenzio Pro collection. Make a statement with elegant finishing touches and long-lasting functionality. Experience wellbeing at work, delivered through every detail. It's the Zilenzio way.

Tune Table

Table

Tune Table has been designed in an understated manner, this to create as little attention as possible, but instead tie together the collection. The tables serve as the “break” or “pause” between the sofa’s adding a lightweight and transparent look and feel to the collection. Using the same legs as on the sofas, the patterns remain the same and the wooden tabletop adds a crafted and soft expression. One could consider these tables as almost “non-design”, yet they become a highly versatile and functional product.

75

Tone Tray

Square Tray

Complete your Tone cabinet with a handy storage tray, finished with a crisp edge for easy transportation. The tray is delivered in the same colour as the stand.

76

Tone Plate

Top Plate

This storage plate comes without edges, sitting flush with the cabinet surface and delivered in the same colour as the stand for a seamless look.

77

Delta Lamp

Pendant Fixtures

Delta Lamp is a suspended lamp in our Delta series where the soft design language is easily recognized. The glass shade of hand made opal glass and its thickness and quality creates an even and pleasing light scattering. Combine with Delta Ceiling absorber to create a beautiful installation, or use it on its own.

Sustainability

83

At Zilenzio, sustainability informs everything we do.

We always strive to realise ambitious designs and champion smart processes – offering products that create a bold impression without leaving a heavy footprint on our planet. As part of our ongoing commitment to sustainable practices, we're introducing THE GREEN TAG, our latest initiative to interrogate and transform our environmental credentials right across our product range.

The Green Tag Manifesto

At Zilenzio we are comitting to:

— Use our innovative mindset to develop more sustainable products and ensure our business model positively impacts the environment.

— Follow the guidelines set out by Möbelfakta to ensure we provide excellent quality with strong environmental awareness and social responsibility.

— Only use FSC certified wood, sourced from responsibly managed forests.

— Offer removable fabric that can be easily switched, cleaned, or replaced when necessary.

— Champion the use of stone wool, a remarkable material made from natural stone. Containing no plastic or other dangerous substances, stone wool is also firesafe and brilliantly sound absorbing.

— Partner responsibly. We're building long-term relationships with partners who take sustainability seriously and promote transparency throughout the supply chain.

— Launch our programme with a new collaboration with Ragn-Sells and ROCKWOOL in the Nordic region. Our aim is to lead the charge towards authoritative yet lighter-impact products.

We're challenging the integrity and longevity of our brand from the inside out. And we're inviting our customers and partners to join us on this exciting and essential mission.

Designing and making beautiful products of the highest quality and longest lifespan is our forever mission. From the way we manufacture our products and the materials we use – to our packaging and recommended aftercare – we ensure that every step of the journey is carefully considered. With changeable parts and the ability to recycle our products when they do finally reach the end of their lives, an intelligent approach to repair and reuse is inherent to our brand.

87

Our Designers

Note

Note is a Stockholm-based design studio founded in 2008 working within the fields of architecture, interiors, products, graphic design and design strategy. They like to pay attention to their surroundings, and aim to create objects that make others do the same. By looking at what is unique in every project and emphasising that, they transform non-material values into tactile objects and spaces.
